

2009 MARCH FOR LIFE

On January 18th, fifteen dedicated pro-lifers participated in the annual March for Life sponsored by the Kenosha Chapter of Wisconsin Right to Life. The march is to bring about awareness of the anniversary of Roe vs. Wade.

This year there is also the deadly reality of FOCA, Freedom of Choice Act, which President Obama has promised to sign into law. This legislation will overturn ALL federal and state pro-life laws passed in the last 35 years including the ban on partial-birth abortions, abortions for minors without parental involvement, and no waiting periods to mention a few. Our group is promoting a black ribbon – feet campaign to raise awareness. If you would like more information about our group and activities or to get involved, contact us.
